

NO FLY TIME!

That's right, there's absolutely no fly time on this trip.
We'll take a short 6 hour drive to the

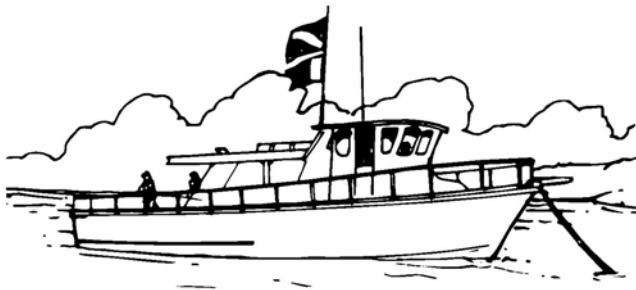

ST. LAWRENCE SEAWAY

On Friday, September 3 we will drive north to the border of the U.S. and Canada. We'll stay in quaint little hotels and dive on intact shipwrecks in the river. Short Boat rides and long bottom times. The scenery is breathtaking and the water will be warm. Most divers use 7mm wetsuits, but some will be more comfortable in dry suits.

This is a trip for divers of all levels from recreational to technical. The ships can be visited at a variety of depths.

This trip is excellent for divers taking certification courses such as Wreck Diver, Nitrox, Advanced Nitrox, Deep Tec or Technical Diver.

The cost for the trip is \$375 per person, double occupancy. Due to the limited space on the boat and in the hotels we cannot offer a discount for guests who will not be diving. Price includes 2 nights at the hotel, 2 days of three dives each (**Sept. 4-5**) and lunch on the boat. We can only take 18 people.

NOTE: Passports are required for this trip. Because we dive wrecks on both sides of the border, we must provide the captain with passport numbers a week before we arrive.
